**DETAILED ACTION**

1. Claims 1-10, 12-23, 25-28, 30, and 31 are pending.
2. A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 07/10/2007 has been entered.

**Specification**

3. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The specification makes no mention of a tangible computer readable medium.

**Claim Rejections - 35 USC § 112**

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

Art Unit: 2137

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 14-23, and 25-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification makes no mention of any tangible computer readable medium; therefore at the time of the invention one of ordinary skill in the art would not have known the inventor had possession of the claimed invention.

***Allowable Subject Matter***

6. Claims 1-10, 12, 13, 28, 30, and 31 are allowed.

7. The following is an examiner's statement of reasons for allowance: The prior art does not reasonably teach monitoring the requests of untrusted applications and alerting the user to either allow and prevent the request from the untrusted application. Marin (US20030140251) and Teixeira (US 6850943) teach similar ideas to this but fail to qualify as prior art.

Art Unit: 2137

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
